2.1	Models	3
2.2	Fields	3
3	Crawfish API	5
4	Indices and tables	7

OVERVIEW

1.1 Installation

Using pip:

```
$ pip install django-crawfish
```

1.2 Basic Usage

Add *crawfish* to `INSTALLED_APPS` in your settings. Crawfish does not require installation in any particular order.

```
INSTALLED_APPS = [  
    # Other apps  
    "crawfish"  
]
```

MODELS

Crawfish includes base models and fields for better Django models.

2.1 Models

```
from crawfish.models import BaseModel
```

2.2 Fields

```
from crawfish.models import EmailField
```

CRAWFISH API

Test

INDICES AND TABLES

- `genindex`
- `modindex`
